

Five Elms Capital

Associate

Five Elms is looking for Associates to join our growing organization. We are highly selective with an emphasis on smarts, accountability, and integrity. While industry expertise helps, we place a higher value on raw aptitude.

If you are looking to make an impact on the success of high growth businesses and have fun in the process, please send us your information. We'd like to meet you.

THESIS DRIVEN STRATEGY

We develop theses around where certain industries are going and seek to invest in businesses that will benefit as a result. We don't build technology and aren't competing with Silicon Valley in creating game-changing technological breakthroughs. Rather, we invest and build companies in industries where technology is slowly and subtly disrupting the way business is done, allowing for a better value proposition for the consumer, faster top-line growth, and higher margins.

WHAT YOU'LL DO

- Identify attractive industry sectors and specific companies for investment
- Speak with hundreds of entrepreneurs each year in an effort to source investment candidates
- Secondary responsibilities include transaction due diligence, financial modeling, and board observer roles

WHAT WE ARE LOOKING FOR

- Strong undergraduate academic record (GPA >3.5)
- Previous work experience in consulting, banking, or sales (internships acceptable)
- Proven track record of determination and intellectual curiosity.

TERMS

- Compensation is highly competitive and includes base pay, bonus, and the ability to invest in Five Elms' portfolio companies
- Three year commitment, typically prior to attending business school
- Please send your résumé, and one-page cover letter describing your interest in Five Elms and your qualifications for the position to: FEassociate@gmail.com
